

P1 COMPLETION CONTROL

24-30 August tracker

Seven intensive days to finish the syllabus

YOUR AIM TODAY

Complete every remaining P1 topic by 30 August and preserve evidence of learning.

YOUR RULE

A topic is not complete because the notes were read. It is complete only after independent questions, marking and corrections.

Student: Rohan

Start time: _____ Finish time: _____

Date: _____

Seven-day execution plan

Daily P1 target: 3 to 4 focused hours.

Date	Main work	Required evidence	Done
24 Aug	Circular measure	Day 7 pack + 12 exam marks	
25 Aug	Trigonometry	Day 8 pack + 20 exam marks	
26 Aug	Binomial, AP and GP	Days 9-10 + 20 exam marks	
27 Aug	Differentiation	Days 11-12 + 20 exam marks	
28 Aug	Integration	Day 13 + 20 exam marks	
29 Aug	Mixed repair	Day 14 + weakest 3 topics	
30 Aug	Full P1 mock	75 marks + correction log	

NON-NEGOTIABLE

Mark on the same day. Any score below 60% triggers relearning before the next mixed set.

Eight-section syllabus checklist

RAG rating: Red below 60%, Amber 60-79%, Green 80%+.

Section	Can do without notes	Best score	R/A/G
Quadratics	complete square; roots; discriminant; inequalities		
Functions	notation; composites; inverses; domain/range		
Coordinate geometry	lines; distance; midpoint; perpendicular; circles		
Circular measure	convert; arc; sector; segment		
Trigonometry	graphs; exact values; identities; equations		
Series	binomial; AP; GP; infinite GP		
Differentiation	rules; tangents; normals; stationary points		
Integration	primitive; C; definite; area; volume		

Error log

Record the first wrong step, not merely the final answer.

[illegible]

Mock and next actions

Use topic percentages to choose revision priorities.

Section	Available	Score	%	Next action
Quadratics	7			
Functions	7			
Coordinate	8			
Circular	7			
Trigonometry	15			
Series	8			
Differentiation	8			
Integration	15			

Three highest-priority repairs:
